

## **ROUNABOUT WORKS: FREQUENTLY ASKED QUESTIONS**

### **Why is this work needed?**

This work needs to take place to support the new development. We are carrying it out now to support the opening of the new Bohunt Horsham School, which is being delivered by the Department of Education and is due to open in December 2021.

### **When will the work begin?**

The work is scheduled to begin on 28<sup>th</sup> September 2020 and is expected to last for approximately 15 months.

### **What will the work involve?**

The work involves improving and upgrading the existing roundabout at the junction of the A264 and Rusper Road.

This will include:

- Additional lanes to increase the vehicle capacity of the roundabout
- Installing intelligent traffic signals at the roundabout to help it to operate at maximum efficiency
- Separate footpaths and cycleways connecting Horsham to our new development
- Landscaping and drainage measures

### **How will you manage traffic?**

There will be some inevitable disruption caused by these works and we would like to apologise in advance for any inconvenience caused. We are using a carefully managed programme to try to minimise this disruption wherever possible.

Lane closures will be used only when absolutely necessary and we will be working to restrict these to off-peak periods. In addition, the first part of the works will not affect the roads as it will be taking place on the land immediately north of the A264.

Throughout the construction period, site traffic will be monitored and managed to avoid causing further disruption.

### **Who is carrying out the work?**

NATTA have been appointed as the contractor to carry out the works, and will be working from 8am - 6pm Monday to Friday, and 9am - 12pm on Saturdays. You will be notified if any works are required during evenings, Sundays and bank holidays.

### **Why are you not carrying out these works overnight?**

Unfortunately, these works cannot be carried out overnight as there are residential properties close to the roundabout. Our work programme is designed to ensure the works are completed as efficiently as possible, whilst minimising the potential disruption.

### **Has lockdown affected your timescales?**

The national lockdown has caused a minor delay to our original timescales for these roundabout works, but we do not anticipate any lasting effects on the rest of our infrastructure works for the new development at this stage.

### **How can we find out more about the works?**

You can get in touch with our Community Liaison team on the details below, or visit our website at [www.landnorthofhorsham.co.uk](http://www.landnorthofhorsham.co.uk) for updates.
